The traditional “team in a box” no longer serves organizations well.

More often individuals are interacting with people from within their workplace, other organizations and communities.

Building strong connections and leveraging differences is key by:

- **Creating communities rather than teams**
- **Building social capital**
- **Staying present by *signing in***

Today's 3 Key Objectives

1. **Demonstrate the Power of Many (better output)**
2. **Practice seeing what's right.... (leveraging strengths)**
3. **Use “Yes, and...” (the *signed in* mindset)**

**Once upon a
time...**
