

## DELTA Chapter Annual Report

Greetings fellow MDRAO members

It seems that we were just preparing to attend our bi-annual MDRAO Conference with great enthusiasm. The conference was enjoyed by the largest amount of members since it's start and Delta chapter was happy to have been able to send twenty-five chapter members along with the executive to attend the conference. This would not have been possible without the ongoing support of the MDRAO courses that are offered throughout the province. We always appreciate the education that the instructors offer and the financial support that comes from the student registrations in the program.

We had a Delta Chapter meeting in October and that held us over until our end of the year meeting in December. Our chapter meetings are always a great opportunity for our suppliers to educate and bring to the forefront new and innovative products. The meetings are great for our younger members working in the field to ask questions of the more seasoned MDRD Techs in the field.

Of course nothing happens without effort and the executive team met before every event to discuss the agenda and all of the necessary co-ordination for the meetings to be a success. We were scheduled to have our education day in April, however scheduling issues with our presenters and sponsors made it necessary to postpone for a later date. As soon as the new date has been finalized we will be forwarding the information to our members.

My term as president of the Delta Chapter is coming to an end and I am honoured to have held and been elected to represent the Delta Chapter. The executive team has been wonderful to work with and I am so great full for there support. Moving into the MDR year I know that the new executive will do great job and I want them to know that they have my support and confidence.

Sincerely

Tony Leite

MDRAO Delta Chapter President
