Speaker Bios:

Scott Wakemann is the V.P Ontario Division, Ecotex Healthcare Linen Services, LP. Previously Executive Vice President of Clarus Healthcare Linen Services, LLP. Extensive experience in Management Consulting in the areas of Manufacturing, Finance, Human Resources, Strategic Planning, and Process Improvement, and Product Development. Scott has extensive experience working with hospitals and long term care facilities in linen management and linen product usage. As a long serving member of the Board of Directors of a non-profit Long Term Care facility, Scott has familiarity with the clinical community. Scott is a graduate of Georgetown University in Washington, DC.

David Corso is a new member of the Advanced Sterilization Products (ASP) team, a division of Johnson & Johnson Medical Companies. Mr. Corso joins ASP as a Product Specialist covering the Ontario and Manitoba provinces. David has spent the last eight years working within the Medical industry. Mr. Corso has worked with the hospital in medical device reprocessing, hospital redevelopment, and the clinical areas of the operating room, maternal child, endoscopy and neonatal intensive care units. He is a graduate of Conestoga College with a diploma in Business Management Studies.

Chris Stout serves currently as the Product Specialist for the provinces of Ontario and Manitoba with Advanced Sterilization Products (ASP) a division of Johnson & Johnson Medical Companies, which he recently transitioned into from a consumable sales representative role. Prior to that role Mr. Stout was a nurse consultant and educator with Olympus' Clinical Support Department & had been in that role for seven years. Previously, Mr. Stout was the Director of Quality Assurance with a U.S. healthcare staffing firm. He has also been a partner and Vice President of a travel nurse staffing company in the U.S. Mr. Stout has clinical experiences in critical care, peri-operative, operating room, endoscopy, cardiac catheterization lab, emergency, psychiatric, sterile processing, telemetry, and travel nursing. Mr. Stout has direct knowledge and experience with accreditation processes, healthcare concepts, and clinical practices, medical and surgical procedures within his more than 20 years of healthcare service tenure. He also has administered CPR & ACLS education. Most recently, he was accepted to be an industry representative to the Canadian Standards Association Technical Committee on Medical Device Reprocessing. He is a graduate of Indiana University with a Bachelor of Science in Nursing and Minor in Psychology.

Phil Carey - Regional Manager Ontario TMML

After spending almost 6 years with Olympus as a Surgical Sales Consultant Phil ventured into Digital Pathology and Antimicrobial Surface treatments with 2 smaller 'start up companies'.

In August he joined the team at TMML after getting a referral from a friend (formally at Olympus – now working for Trudell in Nova Scotia). Phil is very pleased to be back in Ontario & in the Canadian Healthcare space.

Robin Christian – Territory Manager TMML

Robin has been with TMML for 2 ¹/₂ years and in healthcare both frontline and with industry for over 30 years.
