

LAMBDA Chapter President's Annual Report May 2019

LAMBDA Chapter got off to a rough start this year. I didn't become president until June and then had to find people to fill out the rest of the executive. Thankfully Megan Bozec stepped into the Secretary/Treasurer role and has worked diligently to fulfill her duties, even taking time off work to do so. We did have a Director of Education for a short time but unfortunately no longer. I have been trying to fill that role myself but with being president and chapter representative, it is difficult.

However, our membership has grown over the year and more people are taking an interest. Our meetings grew from only one member to a third of our membership. Hopefully this is the start of more LAMBDA members being involved.

We will be sending four members plus the executive to the conference in September and are very excited for our members to have this opportunity. It is a long way for our members to go I am happy the chapter is able to help get them there.

All in all it has been a learning experience for this executive and we appreciate our members' patience and understanding. We also look forward to working with all of you to make LAMBDA relevant to our members. We can only get better!
